Flea treatments are \$10.00 each and will be administered when necessary. We regret to announce that cats that come in with fleas will be given a flea treatment and will also incur in a surcharge of \$5.00 per day to cover for insecticide and extra cleaning and washing, until there are no signs of fleas on the cat, its room, furniture and bedding. It should be noted that any cat, indoor or outdoor, can have fleas. If you want to supply bedding for your cat, make sure that it's washed before arrival.

The owner agrees:

1. To pay for the cost of veterinary attention, special services such as flea treatments, special food or medicines should it become necessary while the cat/s are in the care of the Cattery. The decision to involve a vet service may be made by the Cattery depending on the nature of the problem.
2. Not to hold the Cattery, its managers or employees responsible for any illness (such as paralysis tick, feline influenza etc.) or injury or accident suffered by the cat/s, or for loss of the cat/s however caused.
3. That in the event of the cat's serious illness and where the owner cannot readily be contacted, the veterinary surgeon's decision in relation to treatment of the cat shall be final and conclusive.
4. To pay the charge of \$20.00 per day (single cat) or \$36.00 per day (two cats sharing) when requested or within seven days of the receipt of an invoice. Long stays of 28 days or more will have a discount of 10%.
5. If the payments and/or the arrangements fall into arrears, the owner authorises the Cattery to dispose of the cat/s in such a manner as it sees fit.
6. To allow the Cattery to give personal information to a Vet if it is requested.
